## SAFETY INSTRUCTIONS

**CAUTION:** Keep the device away from children.

**Strangulation Hazard:** Children have STRANGLED in cords. Keep this cord out of the reach of children (more than Mt (0.9m) away). Never use extension cords with AC Adapters. Only use the AC Adapters provided.

**Choking hazard:** This product contains small parts, please be careful when unpacking and assembling the product.

**Read and keep to Instructions:** All the safety and operating instructions should be read before the video baby monitor is operated. This product cannot replace responsible adult supervision.

**Water and moisture:** This product is designed for indoor use only. The unit should not be exposed to rain, moisture, dripping, or splashing. No objects filled with liquid should be placed on top of, or beside the product, such as a glass or vase. This item should not be used near water.

**DO NOT:** Use the appliance if the cord or plug is damaged. If your baby monitor is not operating properly or has suffered any damage, contact The Videotimec service center to request inspection and repair of the appliance in order to avoid any possible risk.

**DO NOT:** Do not attempt to repair or adjust any of the electrical or mechanical functions of the unit. Otherwise, the guarantee will be made void.

**Ventilation:** This baby monitor should not be used on a bed, sofa, rug, or similar surface that may block the ventilation openings, or be placed in an enclosed area such as a bookcase or drawer that may impede airflow.

**Keep away from sources of heat:** This unit should not be exposed to direct heat sources such as a candle, radiator, heat register, stove, or other appliance that emits heat. The unit should not be left in direct sunlight.

**Power source:** This unit should only be used with the AC power adapters included in this package (rated 5V DC 1.2A).

**Damage requiring service:** This unit should be serviced by qualified personnel only when: Objects have fallen or liquid has been spilled into the product; The units have been exposed to rain;

- The units do not appear to operate normally or exhibit a distinct change in performance;
- The units have been dropped or the enclosure damaged;

## WARRANTY TERMS

We offer a one-year warranty from the original purchase date against defects in workmanship and materials. If you have warranty or support issues, please contact our after-sales service via email.

## INSTALLATION GUIDELINES

- To use your parent unit and camera unit together, you have to establish a radio link between them, and the range will be affected by environmental conditions.
- Any large metal object, like a refrigerator, a mirror, a filing cabinet, metallic doors, or reinforced concrete between the baby and parent unit may block the radio signal. The signal strength may also be reduced by other solid structures, like walls, or by radio or electrical equipment, such as TV, computers, cordless or mobile phones, fluorescent lights, or dimmer switches.
- Use of other 2.4GHz products, such as wireless networks (Wi-Fi routers), Bluetooth systems, or microwave ovens, may cause interference with this product, so keep the baby monitor away at least 5ft (1.5m) from such products, or turn them off if they cause interferences.

## PLACEMENT OF THE BABY MONITOR

The camera can be placed on the desktop or mounted on the wall. Don't place the baby monitor on soft quilts or blankets or in the corners of cupboards, shelves, etc; Keep the baby monitor away from heat sources such as radiators, chimneys, cookers, and direct sunlight; Keep the baby unit away from TV sets, microwave oven, and radios. If interference occurs, move the camera elsewhere;

- Place the camera within 6 feet (2 meters) of the area being monitored for optimum performance.

## GETTING STARTED

### 5.1 TURN ON THE BABY UNIT:

1. Insert the DC plug of the power adapter into the DC jack in the rear of the Baby Unit;
2. Insert the other end of the power adapter into a suitable electrical outlet;
3. Once the adapter is connected, the power LED will light up;

### 5.2 TURN ON THE PARENT UNIT:

1. Insert the DC plug of the power adapter into the DC jack on the side of the parent unit;
2. Insert the other end of the power adapter into a suitable electrical outlet;
3. Press and hold the power key for 3 seconds on the side of the parent unit;
4. Once the parent unit is on, the power LED will light up and the image will display on the LCD

### 5.3 INFRARED NIGHT VISION (AUTOMATIC)

The infrared night vision function allows the camera to pick up images in dark or low light conditions. In this mode, only black and white images will be displayed on the monitor, the optimum image lies where the baby unit is 6ft (2m) away from the object. The camera is in night vision mode, the icon  will be displayed on the top of the screen.

## PRODUCT OVERVIEW

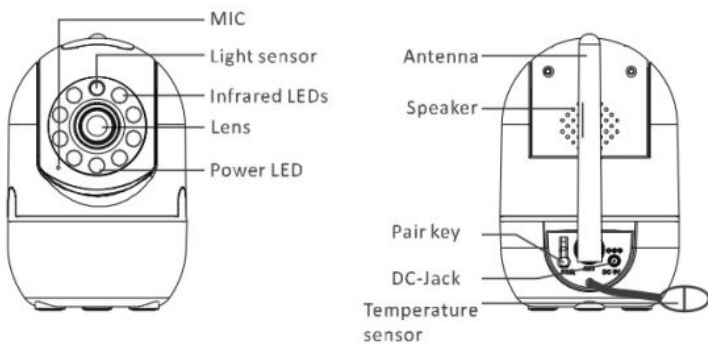

### 6.1 ICONS OVERVIEW:

### 6.2 PARENT UNIT OVERVIEW:

### 6.3 BABY UNIT OVERVIEW:

### KEY OPERATION

Frozen Picture on Screen	* Repower the baby unit (plug out the adapter, then plug it into the socket again); * Press the RESET key at the back of the parent unit

## MAINTENANCE

- Clean your baby monitor with a slightly damp or anti-static cloth.
- Never use cleaning agents or solvents.

## DISPOSAL GUIDE FOR BATTERY AND PRODUCT

- Do not attempt to repair or adjust any of the electrical or mechanical functions of the unit;
- Remember to dispose of the product in an environmentally responsible way;
- For proper collection and processing of these products, take them to the collection points designated by local authorities. You can also contact the store where you purchased the product.

Improper or incorrect use of batteries may cause corrosion or battery leakage, which could cause personal injury or damage to property. Use only the types of batteries that are indicated in this manual.

**CAUTION:** Risk of Fire and Burns. Do Not Open, Crush, Heat Above 45-degree Cor Incinerate.  
Follow Manufacturer's Instructions.

- Disposal of a battery into fire or a hot over, or mechanically crushing or cutting of a battery, that can result in an explosion;|
- Leaving a battery in an extremely high temperature surrounding environment can result in an explosion or the leakage of flammable liquid or gas;
- A battery is subjected to extremely low air pressure may result in an explosion or the leakage of flammable liquid or gas.
- The battery shall not be exposed to excessive heat such as sunshine, fire, or the like;

## FECC& ISDE Statement

This device complies with Part 15 of the FCC Rules and with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation/Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

This equipment complies with Canadian radiation exposure limits set forth for an uncontrolled environment.  
Radiation Exposure Statement for camera

This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body.

**Specific Absorption Rate (SAR) information:**

This Monitor meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluations of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. ISED RF Exposure Information and Statement the SAR limit of Canada(ISED) is 1.6 W/kg averaged over one gram of tissue. Device types: The monitor has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the Monitor kept 0mm from the body. To maintain compliance with ISED RF exposure requirements, use accessories that maintain an 0mm separation distance between the user's body and the back of the Monitor. The use of belt clips, holsters, and similar accessories should not contain metallic components in their assembly. The use of accessories that do not satisfy these requirements may not comply with ISED RF exposure requirements and should be avoided.

**EU Declaration of Conformity (DOC)**

Hereby, video times declares that the radio equipment type is in compliance with RED Directive 2014/53/EU. The full text of the EU declaration of conformity is available on the website: [www.hellobaby.net.cn](http://www.hellobaby.net.cn)
